Recycling

A Nundle Resident recently contacted Council and requested some information on what can go in your yellow lid bin or be dropped off at the larger landfill recycling bins (if you don't have a yellow lid bin), so we thought it was a good opportunity to remind residents what these items are with the recent War on Waste Episodes and you want to get it right!

Recycle collection occurs fortnightly. For residents and businesses that have access to the roadside recycling collection service, Council provides a green body bin with a yellow lid

Council encourages the recycling of the following:

Plastic bottles and containers (marked 1 – 5), empty steel cans, aerosol containers, aluminium cans and foils, milk and juice cartons, glass bottles and jars, paper, cardboard

Please note: all of these items can be placed in the yellow lidded bin together.

The products you put in your recycling bin are collected, sorted and made into new products.

It is vital for the recycling process that only the **correct** items go into the recycling bin. Incorrect items can cause many problems in processing and may result in recoverable resources going to landfill.

It is essential that recyclable items are **NOT** placed in plastic bags. Plastic bags can do damage to the machines that sort the recyclables. When placing items in your recycling bin, please:

Flatten cardboard, rinse all containers to reduce odour, flies and ants (use your washing up water when finished)

remove lids from bottles and jars do not place recyclable items in plastic bags

What should NOT be placed in the recycling bin:

Plastic bags of any kind ,food scraps, nappies, garden organics, household garbage, building materials syringes, mirror/window glass, ceramic or porcelain

<http://www.tamworth.nsw.gov.au/Waste/Collection-Services/Recycling-Collection/Recycling-Collection2>

One of the biggest contamination issues in the Yellow Lid Recycling bin is that people put their recycling in plastic bags to carry it outside to the recycling bin and leave it in the plastic bag. This is a waste of all your recycling efforts as this will end up in landfill.

To help stop this from happening, call into the Nundle Office and collect your reusable yellow bag to carry your recycling to the bin

If the bag gets dirty or smelly, you can spot clean with a wet cloth or put it in the washing machine to clean on gentle cycle.

These bags aren't designed to last forever but they will last for a long period of time.

If it is no longer usable, it goes in the red lid bin and it will breakdown in the landfill as it is made of a compostable material

Hills of Gold Preservation Inc.

A resident/landholder group with more than 100 members, would like to invite you to a Public Meeting to discuss members' research regarding wind farms, and the implications for a proposal for up to 98 wind turbines from Hanging Rock to Crawney

Thursday, September 20, 2018, 6pm at Nundle Memorial Hall. Light supper provided.
