

Manilla Road (Peel Street) upgrade

Tribe to Jewry streets – project update

Roads and Maritime Services | March 2018

Background

The NSW Government is providing \$3.5 million to build the next stage of the Manilla Road upgrade between Tribe and Jewry streets, North Tamworth. This involves building a new roundabout at the Marius Street intersection.

The project has reached the halfway mark, with the following activities completed:

- The western side of the new roundabout
- The northbound lane between Marius and Jewry streets
- Drainage and utility relocations, including telecommunications, water and gas.

Work is on track for completion by the end of June.

Traffic changes

So we can start building the eastern side of the roundabout, traffic will be moved to the western side of Manilla Road.

To minimise the disruptions to motorists, the traffic switch will take place overnight on Wednesday 21 March.

Traffic will continue to be reduced to one lane in each direction, with a 40km/h speed limit in place.

Access in and out of Marius Street from Manilla Road will remain closed until the roundabout is completed.

The first concrete is poured for the new roundabout in early February

Jewry Street intersection

The 2017-18 State Budget included \$150,000 to develop plans to upgrade the Jewry Street intersection on Manilla Road.

Planning work is continuing, including traffic modelling and other investigations.

Improving
safety

Better and more
reliable trips
for people, business and freight
